Advanced concepts and design at a very low cost-that's the OMEGÁ® FL-1000 Series of flowmeters, made of high-impact polycarbonate.

These units are designed to provide a practical approach to low flow rate indication of non-corrosive liquids and gases at the lowest possible cost. The FL-1000 Series flowmeter is equipped with a standard flow control valve. The FL-1000 flowmeter features a single unit polycarbonate tube, bezel and integral float stops for high impact resistance, with easy-to-read design, and ribbed tube construction for increased performance.
