

Biohazard Autoclave Gloves **Safely Unload Your Autoclave**

LAB-13201 Series

These soft, pliant, all-cotton terry cloth gloves are superb for handling hot objects out of the autoclave or oven, or for other heat protection in the lab, school or industry. Heat-resistant up to 232°C (450°F), they replace hazardous asbestos gloves. Gauntlets in two lengths provide wrist and forearm protection, and the bright orange color offers high visibility. Machine wash, air dry. Sold individually.

Shown smaller than actual size.

| To Order | | |
|----------------------|------------------------|-----------------------|
| Model No. | Gauntlet Length | Overall Length |
| LAB-132010000 | 13 cm (5") | 33 cm (13") |
| LAB-132010001 | 28 cm (11") | 47 cm (18.5") |

Note: Gloves are not waterproof and should not be used to handle dry ice.
