# MODULAR PRESSURE SWITCHES COMPACT DESIGN CONTROL APPLICATIONS 

145 to 5800 psig (10 to 400 bar)

## PSW9 Series

| 1 YEAR |
| :--- | :--- |
| WARRANTY |

> Economical Compact Modular Series
> $\checkmark$ Silver Switch Contacts Rated at 10A at 250 Vac, 6 A at 24 Vdc
> $\checkmark$ DIN 43650 Standard (Included)
> $\checkmark$ Easy Field Setting, with Hex 5 Allen Screw (Included)
> $\checkmark$ Process Connections, $1 / 4$ NPT Female, $7 / 16$-20 UNF SAE-4, or G1⁄4 Female

The PSW9 Series pressure switches are used in OEM applications, hydraulic power units, heavy industrial, test equipment, and ship building. The compact modular design makes them useful for both mobile and stationary hydraulic applications. A SPDT micro switch will change state on increasing pressure at the setpoint, and will reset when the pressure decreases below the set-point by the amount of the deadband. The long pressure spring allows for a precise adjustable set-point. The PSW9 features a captive set screw for industrial applications.

## SPECIFICATIONS

Set-Point Repeatability: $\pm 2 \%$ typical
Set-Point Adjustment: Upon delivery, set-point is in the middle of the adjustable range; Turn adjustment screw CW to increase, and CCW to decrease
Hysteresis/Deadband: Less than or equal to 10\% of maximum full range
Contact Rating: Silver 10 A @ 250 Vac, 6 A @ 24 Vdc
Switching Frequency: Maximum 60/minute
Wiring
Pin 1: Common
Pin 2: Normally closed
Pin 3: Normally open
Electrical Connection: DIN 43650 with PG9, clamping range 6 to 8 mm ( 0.23 to $0.31^{\prime \prime}$ )

Ambient Temperature Range
Piston Switch: -20 to $80^{\circ} \mathrm{C}\left(-4\right.$ to $\left.176^{\circ} \mathrm{F}\right)$
Wetted Parts
Process Fitting: Aluminum (AIMg4.5Mn)
Piston: Steel (100Cr6)
Housing: Aluminum (AIMg4.5Mn)
Dynamic Seal: See table on next page, Buna-N or FKM
Adjustment Screw: Stainless steel (1.4305)
Electrical Plug: Polyamid
Environmental: NEMA 4 (IP65)
Shipping Weight: $175 \mathrm{~g}(0.39 \mathrm{lb})$

Comes complete with DIN 43650, Hex screw, and operator's manual.
Ordering Examples: PSW9-AB10DB, pressure switch with 1/4 NPT connection, increasing range 290 to 2900 psi (20 to 200 bar).
PSW9-EC10DB, pressure switch with 7/16-20 connection, increasing range 580 to 5800 psi (40 to 400 bar).
