The HH806 represents the top of the range in the HH800 series of handheld thermometers. All of the HH806 versions feature exceptional 0.05% basic accuracy and include a triple display as well as data logging capabilities. The HH806WE can store up to 128 samples on demand, at the press of a button and up to 1,024 in data logging mode, at a user specified logging interval. The HH806AU and HH806AWE expand the data logging capabilities further and allow storage of up to 256 samples on demand and up to 16,000 in data logging mode. All versions of the HH806 feature three easy to read displays. Two 4½ digit displays are selectable for T1 or T2 and the third 6 digit display can be used for T1-T2 or to show the current date and time. Windows software is available for all models and included with the HH806AWE.
